

Silverband Lodge – Site Risk Management Plan

Silverband Lodge – 204-232 Grampians Road Halls Gap	Assessment Date: Nov 2024	Review Date: Nov 2025	Authorised by: A Chandler
--	---------------------------	-----------------------	---------------------------

STEP 1– RISK RATING – RISK MATRIX AND DEFINITIONS

The Risk Matrix provides a **guide** to assist in objectively assessing the risk potential and subsequent Control Measures to be put in place to adequately manage the risk.

It is suggested that the use of this risk matrix is undertaken by at least 2 persons and the resultant risk ratings are based on the **current control measures you have put in place**.

1st What is the **most probable** consequence of **the unwanted event, incident or circumstance occurring?**

2nd What is the **realistic** likelihood of **the unwanted event, incident or circumstance occurring?**

3rd Use the Matrix below to see where the criteria from the Consequence and the Likelihood tables intersect

Risk Rating Matrix and Definitions

Likelihood	Consequence					
		1 - Insignificant	2 - Minor	3 - Moderate	4 - Major	5 - Severe
	A -Almost certain	Medium	High	High	Extreme	Extreme
	B - Likely	Medium	Medium	High	Extreme	Extreme
	C - Possible	Low	Medium	Medium	High	Extreme
	D - Unlikely	Low	Low	Medium	High	High
	E - Rare	Low	Low	Low	Medium	High

Likelihood		
Descriptor	Level	Definition
Almost certain	A	Will occur in most circumstances (greater than 90% chance of occurring)
Likely	B	Will probably occur in most circumstances (51 to 90% chance of occurring)
Possible	C	Might occur at some time (21 to 50% chance of occurring)
Unlikely	D	Could occur at some time (1 to 20 % chance of occurring)
Rare	E	May happen only in exceptional circumstances when the activity is undertaken (less than 1% chance of occurring)

Consequence		
Descriptor	Level	Definition
Severe	5	Fatality or permanent disability
Major	4	Lost time injury or illness
Moderate	3	Medical treatment injury or illness
Minor	2	First Aid injury or illness
Insignificant	1	Injury or illness not needing First Aid

Silverband Lodge – Site Risk Management Plan

Descriptor	Risk acceptance guide	Action
Extreme	Not acceptable	Notify Silverband Lodge Management Team immediately. Corrective actions should be taken immediately. Cease or isolate source of risk.
High	Generally (in most circumstances) not acceptable	Notify Silverband Lodge Management Team immediately. Corrective actions should be taken within 48 hours of notification.
Medium	Generally (in most circumstances) acceptable	Notify Silverband Lodge Management Team. Contact Person to follow up that corrective action is taken within 7 days.
Low	Acceptable	Notify Supervisor / Team Manager. Contact Person to follow up that corrective action is taken within a reasonable time.

STEP 2 – IDENTIFY HAZARDS AND ASSOCIATED RISK SCORES AND CONTROLS		
<p>For each of the following prompts:</p> <ul style="list-style-type: none"> Review the prompts/examples for each hazard that may potentially exist for the activity/task; Determine and record inherent risk score using the risk matrix; In the comments box, describe when and where the hazard is present; Specify the risk control type, for each current or proposed risk control; Provide a control description for each current or proposed risk control; Where proposed risk control(s) have been identified and complete the corrective action plan at the end of this document; Determine the residual risk score using the risk matrix 	<p>Hierarchy of control (Type) – from most effective to least effective:</p> <p>Elimination – physically remove the hazard</p> <p>Substitution – replace the hazard</p> <p>Engineering Controls – isolate people from the hazard</p> <p>Administrative Controls – change the way people work</p> <p>PPE – protect the people with personal protective equipment</p>	<p>Most Effective</p>  <p>Least Effective</p>

Silverband Lodge – Site Risk Management Plan

1. VENUE

Task / Category / Location	Hazards and risk identification	Comments / Risk control / Control description	Residual Risk Score		
			L	C	RS
<i>EXAMPLE: Entry / exit the building via heavy wooden door.</i>	<i>Bottom of door drags on floor, requires effort to open and close. Potential for injury – muscle strain: employees, members of the public.</i>	<i>Eliminate the hazard: Maintenance contractor to inspect door and repair. Inspection of door added to annual building inspection schedule. Issue reminder about reporting hazards when first observed.</i>	<i>D</i>	<i>2</i>	<i>L</i>
General	<ul style="list-style-type: none"> Injury or accident due to Health and Safety Hazard Infrastructure not maintained at an appropriate standard 	<ul style="list-style-type: none"> Organisation commitment to managing OH&S, including scheduled maintenance checks and OHS Reviews. Maintenance and construction work is performed by licenced and qualified contractors Construction meets relevant codes – Compliance Certificates provided for all work completed. All sites maintain current licences required to operate e.g. Prescribed Accommodation and Food Premises. Site maintains Quality Tourism Accreditation Site Risk assessment conducted to identify potential hazards and risk mitigation strategies. 	D	2	L
	<ul style="list-style-type: none"> Site uninsured in event of an incident leading to financial loss or claims against the business 	<ul style="list-style-type: none"> Site maintains Public Liability & Property insurance and a current Certificate of Currency can be provided on request 	E	4	M
Maintenance & Workshop Areas	<ul style="list-style-type: none"> Accident or injury due to accessing out of bounds areas (maintenance, utility and workshop areas) Injury due to untidy maintenance areas Injury due to inappropriate used of specialised equipment 	<ul style="list-style-type: none"> Maintenance & workshop areas are kept locked when not in use Groups are briefed on out of-bounds areas on arrival Signage is prominently displayed identifying 'No Entry' areas. Hazards are roped off appropriately. Maintenance & workshop areas are kept clean and tidy Staff provided with training on use of specialised equipment – eg chainsaws 	C	3	M

Silverband Lodge – Site Risk Management Plan

	<ul style="list-style-type: none"> Hazardous material incident (e.g., fuels, pesticides) 	<ul style="list-style-type: none"> Hazardous materials are stored securely Training provided to staff in use of hazardous materials 	D	2	L
Pedestrian and vehicle traffic	<ul style="list-style-type: none"> Person struck by a vehicle on site Faulty vehicle/ breakdown 	<ul style="list-style-type: none"> Walking pace (5km/h) speed limit on site for all vehicles Signage identifying that pedestrians and bikes will be using driveways Staff trained to drive appropriately onsite as per the Motor Vehicle Policy and Induction 	D	2	L
Swimming pools	<ul style="list-style-type: none"> Drowning Unsupervised use of pools by minors or weak swimmers Contact with and/or ingestion of chemicals Trip or fall on slippery surface 	<ul style="list-style-type: none"> Self-facilitated pool activities must be supervised by qualified personnel – as per camp coordinator arrival briefing and gate signage. Pool area is fenced, self-closing gates with child proof latch – compliant to regulations Pool ‘closed’ sign is put up when pool not in use. Signage compliant with Victorian Health ‘Operation of Public Swimming Pool’ guidelines Signage indicating pool rules, depth and rescue equipment Rescue equipment / pole is clearly visible and inspected for serviceability Chemicals stored in locked pump room. Regular testing of pool water to ensure within appropriate limits Pool will be closed to any group or individual putting themselves or others at risk. 	D	4	H
Recreation areas including ovals, basketball, tennis & volleyball courts, playground and associated equipment	<ul style="list-style-type: none"> Trip or fall Equipment misused causing injury (e.g., hanging from basketball ring) Faulty equipment causes injury Slippery or unsafe surfaces could cause falls or collision Injury related to fall from height on playground 	<ul style="list-style-type: none"> Supervision of minors by a competent adult is always required. School staff and group leaders are responsible for supervision of children on camp / during their stay as per booking terms and conditions and welcome briefing. Signage is erected to identify risks, restrictions or ‘out of -bounds’ areas Recreation areas will be regularly checked and maintained Playground Inspection Checklist / OHS Checklist is completed to identify hazards and ensure safety of playground and other equipment, this includes ensuring adequate soft fall. Recreation areas will be closed to any group or individuals putting themselves or other at risk or causing damage. 	D	2	L
Site Hazards (e.g. dams, lakes, cliff areas, settling ponds)	<ul style="list-style-type: none"> Drowning Trips or falls – uneven ground or road surfaces Fallen trees / branches 	<ul style="list-style-type: none"> Signage is erected to identify risks, restrictions or ‘out of -bounds’ areas Annual tree assessment and risk mitigation works Identification and management of hazards will occur regularly as part of the site checks and maintenance. Staff are able to report hazards via Venuelife (venue management software) as they are identified 	D	2	L

Silverband Lodge – Site Risk Management Plan

		<ul style="list-style-type: none"> Group leaders are responsible for supervision of guests on camp / during their stay as per booking terms and conditions and welcome briefing. 			
--	--	---	--	--	--

2. ACCOMMODATION

Task / Category	Hazards and risks	Risk control	Residual Risk Score		
			L	C	RS
Accommodation – sleeping areas, meeting rooms	<ul style="list-style-type: none"> Injury due to misbehaviour or poor group leader supervision Poor hospitality experience due to inadequate sleeping arrangements, including for guests with a disability Faulty fixtures, fittings or appliances lead to poor guest experience or injury Pest infestation Building Fire 	<ul style="list-style-type: none"> Group leaders are responsible for supervision of guests on camp / during their stay as per booking terms and conditions and welcome briefing. Ensure adequate sleeping accommodation for each guest – request information in advance from groups to allow accommodation to be allocated appropriately. Ensure separate accommodation available to account for all genders and individuals by requesting information in advance from groups in relation to their accommodation needs. Ensure staff accommodation is within easy access for participants as required. Flyscreens installed in all rooms. Pest control routine implemented. Evacuation procedures signage in each room. Groups briefed on evacuation assembly points and Emergency Response Procedures Group to advise of any maintenance required during stay. Maintenance is logged on Venuelife and addressed in a timely manner. Faulty appliances and fittings are taken out of service until adequate repairs are made. 	C	2	M
Housekeeping and cleaning	<ul style="list-style-type: none"> Trips and falls Wet floors- slip hazard Slip in wet area Chemical incidents 	<ul style="list-style-type: none"> Chemicals and cleaning materials are stored appropriately for use All electrical cords are wound up when not in use. Testing and Tagging completed as part of routine maintenance checks / schedules. “Cleaning in Progress” & “Wet Floor” signs utilised Safety Data Sheets are readily available for all chemicals utilised at Silverband Lodge and staff are trained in the use of these chemicals. Cleaning conducted in accordance with cleaning checklists. Toilets in amenities are cleaned during quiet periods to minimise contact of guests with wet floors 	D	2	L

Silverband Lodge – Site Risk Management Plan

		<ul style="list-style-type: none"> • Mattresses, mattress protectors & bedding are checked and replaced (if required) after every camp • Staff are encouraged to wear closed shoes with appropriate grip surface 			
Child safe Incident	Child Safe Incident reported with: <ul style="list-style-type: none"> • Staff and Guests • Amongst Guests 	<ul style="list-style-type: none"> • SBL has a detailed Child Safety Policy and Framework which covers all aspects of interactions with staff and vulnerable people as well as reporting protocols. • All staff complete Child Safe training prior to employment and are required to have WWCC. • Per SBL Child Safety Protocols, staff are not to be alone with a child or vulnerable person, i.e., when room cleaning staff knock, call out and only enter if room is unlocked and vacant 	E	3	L
Security	<ul style="list-style-type: none"> • Intruder / trespassers • Loss or stolen of property • Assault 	<ul style="list-style-type: none"> • Group leaders are responsible for supervision of guests on camp / during their stay as per booking terms and conditions and welcome briefing. • All staff identified by wearing a uniform when groups are on site. • Groups are limited to specific areas identified in their booking and reinforced during briefing • Group Leaders (teachers) are shown location of accommodation keys to allow them to assess rooms. • Groups are allocated a designated lodge or rooms separate to other groups onsite. • 24 hours on Duty Manager located within 15 min of SBL • Signage reinforces messaging that SBL facilities are for guest use only • EMP details process for dealing with intruder onsite 	U	2	L

3. ACTIVITIES

Task / Category	Hazards and risks	Risk control	Residual Risk Score		
			L	C	RS
Activity areas and infrastructure	<ul style="list-style-type: none"> • Environmental damage – e.g., tree fall • Failure of activity infrastructure or equipment 	<ul style="list-style-type: none"> • Routine inspection for potential tree hazards and tree lopping as required. • Annual external safety and maintenance audit and report on all high rope elements • Equipment is used, stored, maintained and retired in accordance with manufacturers guidelines 	R	4	M

Silverband Lodge – Site Risk Management Plan

		<ul style="list-style-type: none"> Where appropriate equipment logs will record equipment usage Routine Maintenance Checks after each usage Soft fall monitored and replaced as required per schedule maintenance checks. Parks Vic managed sites utilised for activity and overnight camping. Instructors to review for safety / hazards prior to use as per the Field Guide. 			
Specific Activities	<ul style="list-style-type: none"> Guests injured while participating in program activities Staff or guests injured by another participant whilst participating or observing Poor supervision by visiting leaders or SBL leaders Unsafe practices 	<ul style="list-style-type: none"> Guide/ leaders will only conduct activity programs within their qualification, skill and experience level Guide / leader ratios are maintained at an appropriate level and inducted into new activities. Training and professional development will be provided for leaders All sessions will include a safety briefing Separate Activity RAP conducted for each activity. Group leader briefings will highlight that the Group Leader has responsibility for behaviour management, supervision and care Detailed Activity-specific Risk Assessments completed for all activities. 	D	3	M
Staff / Activity Leaders /Guides	<ul style="list-style-type: none"> Not following procedures leading to accident / injury Staff lacking in qualifications, skill, experience, and knowledge leading to injury 	<ul style="list-style-type: none"> Specialised Activity Leaders have certifications / qualifications in outdoor recreation and / or have been specifically trained on individual activities Instructors have current First Aid qualifications. Instructions to follow Silverband Lodge's Standard Operating Procedures Activity leaders experience, skills and qualifications are assessed at the time of employment and on an ongoing basis 	D	2	L
Activity access & egress	<ul style="list-style-type: none"> Activity area accessed without permission and supervision Activities left accessible (e.g. ladder or ropes still in place and stored securely) 	<ul style="list-style-type: none"> Groups will be briefed on 'out of bounds' areas. This includes some activity areas when not in use with SBL leader. Signage will be clearly displayed warning of danger or prohibiting access unless under supervision. SOP's for set up and pack up activities will ensure activity infrastructure and equipment is not accessible after normal use. Equipment and maintenance sheds to be locked to prevent unauthorised access 	D	2	L

CATERING / FOOD SERVICE

Task / Category	Hazards and risks	Risk control	Residual Risk Score		
			L	C	RS

Silverband Lodge – Site Risk Management Plan

Kitchen	<ul style="list-style-type: none"> ● Reaction to food being served ● Food poisoning ● Injury due to not following procedures 	<ul style="list-style-type: none"> ● SBL has a Food Safety Supervisor and a relevant Food Safety Plan, including temperature logs ● Staff are trained in both the knowledge and skills required for their area of responsibility ● Special diets are prepared according to Silverband Lodge procedures (see information below) ● Incidents and near misses are logged and follow up action taken in training and policy review as required. 	D	3	M
Serving areas & dining areas	<ul style="list-style-type: none"> ● Incident due to incorrect food handling & storage ● Burning / scalding ● Slip on wet floor ● Injury due to unsupervised access ● Cuts 	<ul style="list-style-type: none"> ● Guests briefed on appropriate behaviour and expectations at meal times ● Food to be stored according to manufacturer's recommendations ● Food Safety Plan in place and staff trained in safe food handling. ● Gloves to be worn when serving (front of house staff) ● Hands washed and gloves to be worn in food preparation. ● Cleaning in process signs to limit access in case of fluid spills 	D	2	L
Scullery	<ul style="list-style-type: none"> ● Incident due to use of chemicals ● Burning / scalding ● Slip on wet floor 	<ul style="list-style-type: none"> ● Safety Data Sheets are readily available for all chemicals utilised at Silverband Lodge and staff are trained in the use of these chemicals. ● Appliances to be turned off at the wall ● Check temperature of water before immersing hands – Hot water sign displayed on Urn. ● Cleaning in process signs to limit access in case of fluid spills 	E	2	L
Special diets	<ul style="list-style-type: none"> ● Allergic reaction to known trigger ● Anaphylaxis ● Reaction due to medical requirement ● Religious or ethical reasons 	<ul style="list-style-type: none"> ● Silverband Lodge catering staff receive training in allergy-aware catering and can cater to known special diets. ● Guests are responsible for communicating special dietary needs to Silverband Lodge – planning information provided requesting special dietary information prior to guests stay ● Special diet meals are clearly labelled ● For schools, Guest Leaders are responsible for monitoring students and ensuring they manage their dietary needs and allergies ● Silverband Lodge has a Nut Awareness Policy does not use nuts in cooking (but cannot guarantee a nut free environment) ● Group required to have a nominated first aid person and supply their own first aid kits ● Visiting group to bring prescription medication for allergies, especially 'EpiPens' for management of Anaphylaxis ● An Emergency Epi-pen is available at each site in the Emergency First Aid Kit. 	D	4	H

Silverband Lodge – Site Risk Management Plan

		<ul style="list-style-type: none"> Activity group facilitators hold Apply First Aid qualifications and carry essential First Aid items AED located onsite and groups will be briefed on its location upon arrival 			
Cleaning food service areas	<ul style="list-style-type: none"> Incident due to use of chemicals Burning / scalding Slip on wet floor 	<ul style="list-style-type: none"> Chemicals and cleaning materials are stored appropriately for use All electrical cords are wound up when not in use. Testing and Tagging completed as part of routine maintenance checks / schedules. Appliances turned off at the wall. “Cleaning in Progress” & “Wet Floor” signs utilised Safety Data Sheets are readily available for all chemicals utilised at Silverband Lodge and staff are trained in the use of these chemicals. Cleaning conducted in accordance with cleaning checklists. <p>Staff are encouraged to wear closed shoes with appropriate grip surface</p> <ul style="list-style-type: none"> Check temperature of water before immersing hands – Hot water sign displayed on Urn.
